

Carbohydrates

"carbon" + "water"

- *stores energy (starch + glycogen)
- *provides structural support (wood)

Lipids

- fats + oils** (store energy, lubricate armpits)
- cholesterol** (the basis for steroid hormones)
- cell membrane**
(phospholipids, provide waterproof barriers)
- earwax** (prevent bacteria from spreading)

Proteins

- transport substances** (hemoglobin carries oxygen)

test tube A from the Food samples to the food sample 1. In the Gizmo™, dra
