

BACKGROUND

Five family members all head up for a picnic. Use the descriptions to work out how they get there and what snacks they brought with them. Tell us how these are related to the game (which is the grey space in the larger grid). Read through the list of clues below and use the larger grid to record any information. Place a tick in a box if you have any definite positive information and a cross for any definite negative information. For example, you learn that Brady took the motorcycle, so we place a tick in some typical foods and a cross in the grid to help you. Using the method, you should be able to fill in the smaller grid.

Clues

- 1 Brady took the motorcycle and brought food.
- 2 The person driving the car brought water.
- 3 Both James and Paul didn't drive so we can't say they got to the picnic.
- 4 Brady went next door to get going to the picnic but she didn't bring the car.
- 5 A woman walked to the picnic and brought some vegetables.
- 6 Helen took something to drink.
