

Name: _____ Period: _____ Date: _____

The Periodic Table

Across

- I am the heaviest of the noble gases.
- My symbol is Ag.
- My symbol is Pt.
- I have one less proton than scandium.
- I have 44 protons.
- My atomic number is 41.
- I have a mass number of 55.
- My symbol is W.
- My symbol is Sn.
- I am the lightest element of the noble gases.
- I have 4 neutrons.
- I have one more proton than Tin.

Down

- My atomic number is 84.
- My symbol is Ir.
- I am the heaviest element with properties similar to sodium.
- My symbol is Au.
- I am a liquid in the same period as Fe.
- I have a mass number of 50.9.
- I am the lightest element.
- I have 14 protons.
- My atomic mass is 39.09.
- I am the lightest of the man-made elements.
- I have 81 protons.
- I am the lightest element with properties similar to calcium.
- I am a liquid metal.
- I have one less proton than Zr.
