### Science Experiment #14

Each week your teacher has an experiment for the class to do. The name for this experiment is, and this is not how that name is written, described as:

#### How to report

Always give only the size of the object you are measuring. Do not give the weight, the width, thickness and length. Always give the length in centimeters. Do not give the weight in grams. Do not give the length in millimeters. Do not give the weight in grams. Do not give the length in centimeters. Do not give the weight in grams.

Complete the following table:

Number	How to report the measurement
1. Measure the width	
2. Measure the length	
3. Measure the width and length	
4. Measure the length and width	
5. Measure the width and length
