Reading Comprehension Test 4

Frequency: Answer questions to provide answers.

Read the text carefully and answer the questions that follow.

Spide and Tim decided to make puppets for their friends who had come to watch their game. Following their parents' directions, they used a small bag of corn and two tablespoons of oil. It didn't look like there would be enough popcorn for twelve hungry boys and girls. Spide and Tim didn't know what to do.

"We need to follow our parents' directions!" said Spide. "Follow the instructions!"

"That makes sense. What if, there are four times as many people eating the popcorn than when Mom and Dad make it. Maybe we should multiply the recipe and use four bags of corn," said Tim. Spide agreed, so they added four times the amount of corn and oil. They realised that they had the corn and oil for pop, but they didn't have the kernels.

Remembering of the very thing, borrowing the kernel. It included the kitchen counter on the table of Mom. Spide and Tim had just found the kernels. The popcorn was popping the lid off the pot. Popcorn was popping and jumping all over the kitchen. The family dog, Bumper, began jumping up to catch the popcorn. Trying to catch the popcorn in paper cups, everyone started laughing. There was popcorn everywhere on the floor when the popcorn had stopped.

Suddenly, Spide and Tim's parents walked in.

A. Circle the letter that corresponds to the correct answer. (10 marks)

1. The story probably takes place _____.

- a. the morning at school
