

Name : _____

Score : _____

Teacher : _____

Date : _____

Adding and Subtracting Rational Expressions

Add or Subtract the two expressions in each problem.

The image shows a large black rectangular area that has been placed over the main content of the page. This area obscures all text and mathematical expressions that would otherwise be visible. Only the header information (Name, Score, Teacher, Date) and the section title are visible above the black box. The text 'Add or Subtract the two expressions in each problem.' is also visible above the black box. The black box covers the entire area where the problems would be listed, including what appears to be a list of problems numbered 4) and 5) on the left side, and 9) and 10) on the right side.
