

Name: _____

Monday

Math Practice: Understanding Division (3.OA.6)

Solve. Use the number line to find the unknown factor.

$$8 \div \triangle = 2$$

$$\triangle = \underline{\quad}$$

$$16 \div \triangle = 8$$

$$\triangle = \underline{\quad}$$

$$35 \div \triangle = 7$$

$$\triangle = \underline{\quad}$$

$$27 \div \triangle = 3$$

$$\triangle = \underline{\quad}$$

Write the multiplication fact you use to help you divide. Solve.

Jasmine is sorting 32 pennies into 8 equal groups.
How many pennies are in each group?

Collin separates 14 butterflies into 2 equal groups.
How many butterflies are in each group?

Multiplication fact _____

Multiplication fact _____

Answer _____

Answer _____
