

## How to draw a face in 12 steps

1. Draw an upright-down egg shape
2. Draw the line of symmetry and the ear line at the midpoint of the head
3. The eye center is located between the sides of the face and the symmetry line
4. The bottom of the nose is located at the midpoint between the eye line and chin
5. The bottom of the mouth is located at the midpoint between the nose line and chin
6. The ears are located between the eye line and nose line
7. Draw your guidelines
8. The face is for eyes only. Lines at eye width between the eyes
9. The neck is found by aligning with the outside edge of the eyes
10. Eyebrows and shoulder shape are added
11. Hair and nose bridge are added
12. Add color, shading to bring your person to life
