The disadvantages of modernization in Vietnam

Modernization is a trend that has influenced every modern society on the planet. In Vietnam, there are many disadvantages to it. However, in the scope of this essay, I want to focus on those bad effects on our life, especially on the youth. They are our problems, corruption (bad marriage), and crime. These are the typical disadvantages that are really harmful to their development.

First of all, our crime is the biggest problem. Just after a short time, a crime of our country increases with high quantities. With the growth of the internet, there is an outbreak of our social media, such as video, film, etc., online, etc. According to Google Trends, Vietnam is one of the top countries which have amount of people type the key word "sex" to search all over the world in 2017 and 2018. However, many sites sex media in Vietnam are posted on the internet, but only the normal people, but also the lowest degree of crime are swept away by the net sites. The typical example is
