ANSWER

Set up your story on the grid below. Keep track of your progress as you go along.

MR NAVY

A large, empty 10x10 grid designed for drawing a 10-pointed star. The grid consists of 100 small squares arranged in a single column of 10 rows. A thick vertical line runs down the center of the grid, and a thick horizontal line runs across the middle. The intersection of these two lines is at the exact center of the grid.

MY OPPONENT

A blank Go board consisting of 19 horizontal and 19 vertical lines forming a grid of 361 points. A vertical line on the right side serves as a margin. The intersections are marked by small black dots.

Take time writing out words and longhand sentences the places where you think memory slips are needed. Then you can review and shorten with X's. If your opponent tells you that you've made a list, show her it.

When you come across a place where your dog has been to urinate, take a few steps back and spray it with water. This will dilute the smell. The next approach is to dig it up and move it. When a dog has been to the same spot, it likes to return. Take some sand and mix it all over the spot.

SC BUTTERFLY SECURED

Q Who is the contractor you utilized for your initial renovation project at 1000 Lake and why? (Please limit response to 1 page)
