

Topic: The Role of the State In the 19th century, the state was seen as a necessary evil, a force that intervened only when the market failed. However, by the late 19th century, the state's role had expanded significantly, particularly in the areas of public education, public health, and social welfare.	
Learning Objectives: 1. Explain the evolution of the state's role in the 19th century. 2. Analyze the impact of the state on public education, public health, and social welfare.	Classroom Activity: Debate: Should the state be responsible for providing public education, public health, and social welfare?
