

Macromolecule Review Chart

| | Carbohydrates | Lipids | Proteins | Nucleic acids |
|----------------------------------------------------|---------------|------------------------|----------|---------------|
| Functions of macromolecule | | | | |
| Name of monomer/subunit | | Fat: Phospholipids: | | |
| Monomer example | | NA | | |
| Name of covalent bond that joins monomers/subunits | | | | |
| Functional groups involved in bond | | | | |
