

Name _____ Angles

Amaizing Angles

Patrick Peacock is proud of all his feathers! He likes to spread them out for all to see. Listed below are different angles that can be found within his feathers. Each angle shares the same vertex. Use a protractor to measure each angle listed. Then find the degree of each angle in the answer box below and write the corresponding word in the appropriately numbered blank in the poem at the bottom of the page.

Angles

- 1. \angle PARO
- 2. \angle RAU
- 3. \angle DAB
- 4. \angle DAD
- 5. \angle OAL
- 6. \angle BAP
- 7. \angle SAP
- 8. \angle CAD
- 9. \angle KAT
