

12:30-1:35 **BEGIN MATH**- Choose the same Math activities that you did with the other class and have my homeroom complete those also. Line up for Specials at 1:30

1:35-2:20 **SPECIALS**- Take students to their specials rotation: Monday= Music, Tuesday= PE, Wednesday=Library, Thursday= PE, Friday= PE

2:20 Pick up students from the same place you dropped them off at.

2:25-2:45 **MATH CONTINUED**- Finish math assignments if you did not get to them before Specials. If you have everything finished, allow students to get a book from the library to read at their desk.

2:45-2:50ish **PACK UP**- Call quiet tables to get their backpacks from their lockers. Students get out their folders and get the room cleaned up. Students should put any conduct notes or notes from the office in their folder. Chairs need to be stacked beside the tables (I have students that do this daily as their job) Please make sure student computers are turned off as well as the projector and Lumens.

2:55-3:05 Students sit on the tile by the lockers when they are finished packing up. Around 2:53, students need to go to their appropriate dismissal places. Bus riders will line up outside of my room. Car riders will line up in the 2<sup>nd</sup> grade hallway. Please assist with dismissal.
