

## Cloud Types and Formation

Click on: <http://vathena.arc.nasa.gov/curric/weather/pricloud/index.html> to answer the following questions.

1. What does the word "Cirrus" mean?
2. Are cirrus clouds low or high?
3. What are the large clouds that sometimes look like huge puffs of cotton?
4. What root word tells us that a cloud brings rain?
5. Which type of cloud usually covers the whole sky and brings gray days?

Click on: <http://www.fi.edu/weather/events/fog.html> to answer the following questions.

6. Fog is a \_\_\_\_\_ based on the ground, rather than in the atmosphere.
7. Fog forms when there is a lot of \_\_\_\_\_ near the ground, or when the air near the ground \_\_\_\_\_ to the dew point.
8. What is dew point?
9. If air near the ground cools to this \_\_\_\_\_, water vapor from the air will become visible as \_\_\_\_\_ on the ground or \_\_\_\_\_ in the air.
