

Associate Level Material

Appendix 2

Collaboration Worksheet

Write a 100 to 200 word response to each of the following questions.

1. What are the advantages of having diversity in a collaborative learning environment?

Collaborating better with individuals from diverse cultures, including yourself, gives diversity real benefits from you that truly give this culture an edge. From the diverse culture, diversity, race, and class, religion, diversity in general is good for any learning environment. The diverse race offers real for you experience a new set of ideas, languages, ideas, people, culture, race, and class that they can teach to offer these only an experience in their experience. Whether you are an adult or a young child, participating in a group with others, their own life experiences, ideas, and learning from one and often two, help understanding, their knowledge and learning experience when participating in a collaborative learning environment and better to learn, they can learn about other cultures, beliefs, behaviors, and family values. As students, culture can all have something new to offer a classroom environment, engagement in their subject or understanding in a group or team.

2. How might factors such as diversity, attitude, learning and work style affect collaboration?

Diversity aspects in diversity that may affect collaboration are language barriers. Some people that do not speak the English language and work in an area where it might not be necessary. Some individuals are not the right culture others to work in a person with a judgement over their thought are should not work in a collaborative environment. Some are not a lot of people that individuals that do not have social preferences, gender and race taught. As females and males I believe are all the same when it comes to working in a collaborative environment. I believe that all individuals that should be in a collaborative environment in the first example working in a classroom. Culture for the most part is considered for many that personally not say the way a lot of females were very used to joining the culture. With diversity of the students that in the group they also must be provide. Diversity of students in one work style and attitude understanding is best. We must all be able to work in one team whether male or female, white or black, short or tall, fat or skinny, learning to use under the regular environment in the classroom in a group to have an idea of approach and adjust to work learning environment.

3. How does personal responsibility influence the work and success of a group?

Having my opinion, I believe that it has a major effect. If a person is not responsible in a group what people attitudes will also bring into the group that must be willing to meet and listen to what they are presenting the culture requires. I have a high influence because of everyone's focus is there, not everyone wants the success of the group that there will not be any involvement in groups. In order for a work or group to be successful there must be a team. There must be communication and cooperation. Different opinions must be shared in order for a group agree to what will be working for the entire group. It is not hard to agree to that responsible people affect an work, culture, diversity in their personal affairs. Personal responsibility in every aspect affect a group. If there is one person that not take responsibility for their share of the work, the other members are frustrated, angry, and the work is not the group taking. This can lead to confusion and bad feelings which will affect the communication and ultimately the success of
