

Reindeer Division Riddles

Name _____

1) Prancer is passing out candy canes to 7 of his reindeer friends. He wants to give each friend an equal amount. He has 75 candy canes in all. How many candy canes will each reindeer receive and how many will be leftover?

2) 4 elves baked reindeer treats to put in the reindeer's Christmas stockings. Each elf baked 12 treats. They are going to put the treats in bags of 5. How many bags do they need? Will there be any treats that are left over?

3) Each stable at Santa's Workshop has room for 4 reindeer. How many stables are needed for 17 reindeer?

4) Santa passed out marshmallows to the reindeer for their gingerbread houses. He bought 4 packs of marshmallows. Each pack had 10 marshmallows. There were 9 reindeer making gingerbread houses. How many marshmallows will each reindeer receive?

5) Rudolph wants to make Christmas wreaths for the other 8 reindeer. Each wreath has 6 flowers on it. He buys 100 flowers in all. Will he have enough flowers for his project? Will there be any left over?

6) All of the reindeers in Santa's village were lined up for the Twinkle Light Parade. Mrs. Claus counts 121 reindeer feet. Explain how you know that she has not counted correctly.
