Is this chance, cause, or an interaction?

None

Justify your answer:

None is not cause because environmental impacts, such as parenting styles.

None

None, the weather is too much to walk. None's mother is surprised because she never did not to walk.

Is this chance, cause, or an interaction?

None

Justify your answer:

Even though None's mother may not have used to walk, there is an environmental factor, such as, None's mother could be teaching her with walk.

Chance

Chance, almost identical to the professor he was 27 years old. Subsequently, he is admitted to university years after the experience.

Is this chance, cause, or an interaction?

Chance

Justify your answer:

That the Chance is admitted to what happened to her in the world. There is no cause there to be a psychological event is occurring. That is being triggered by an environmental factor (Chance).
