

PEMDAS RAP:

Please Excuse My Dear Aunt Sally,  
for she knows not how to do, the simple math  
all she did was laugh, but I LISTEN when I'm in class, Cuz it goes...

Chorus:

O, O, O, Order of Operations  
O, O, O, Order of Operations  
O, O, O, Order of Operations  
Now YOU can be a Math Sensation!

First do the work in the PARENTHESIS, it's easy, say it with a little emphasis  
Now pick up your head and put your thinking cap on...the next step  
Look at the EXPONENT! Exponent, Yeah what's that Teach?  
Ok, it's the little number up on the right of the digit...Oh yeah, that's right!  
Now, take it back to 3<sup>rd</sup> Grade, just MULTIPLY if you need to you can also  
DIVIDE, all Aunt Sally did was just add and subtract.  
As a matter of fact, you all ADD & SUBTRACT, that's the Last 2 steps!  
Ooh, now take a breath, it's easy, like A-B-C,  
but this is Math so we goin to say 1-2-3  
from Mr. QUE, Now you ALL can be Math Sensations like Me!

Back to Top

Wanna be a Math Sensation, just like me  
If you like to count your money up, just like me  
FIRST you gotta do the work in the PARENTHESIS  
NEXT step is the EXPONENT  
MULTIPLY & DIVIDE then ADD & SUBTRACT  
Use the LEFT to RIGHT rule when you're doing the Math  
Just Do it like this and you're gonna pass  
Now sing along with me while we do this Math...

Chorus: (2x's)

O, O, O, Order of Operations  
O, O, O, Order of Operations  
O, O, O, Order of Operations  
Now YOU can be a Math Sensation!
