# Simplify & Snap Fraction Game

### Directions

1. Shuffle the fraction cards and place them face down in front of the player. The leader flips the top card.

2. Set the timer for 1 minute.

3. Without talking, everyone simplifies the fraction to lowest terms.

As players finish solving the problem, they turn their dry erase boards or papers face down to hide their answers.

When everyone is ready or the time goes off, show your answers

to each other. The Leader looks at the answers to find the
