

# Act Well Your Part

*Read this before stepping on stage*

---

## 1. Don't forget the audience

Think of the audience as your acting partner. Make sure they can see, hear and understand you.

## 2. Act with the voice AND the body

How does your character stand, walk, gesture?  
What kind of character does the audience see?

## 3. Pay attention to your voice

Be aware of your diction, articulation and volume. All three are necessary in the theatre!

## 4. Stay in character

Even if you forget lines or get horrible stage fright, **stay in character**. If you're always in character the audience will never know there's something wrong.

## 5. You are never invisible

If you can see the audience, they can see you. Never assume you can goof off, squirm or break character when you're not the focus of a scene.
