

## ANCIENT EGYPT

Ancient Egypt is located in Northern Africa, just below the Mediterranean Sea.

Egypt is what, dry, desert country. In deserts there is very little water and grows plant life, but there's a lot of bones dig sand.

The Egyptians have lived here for at least four thousand years. They used the Nile to water their crops, and to help them to build a huge empire.

Egypt is very famous for the Nile River, Pyramids, Pharaohs, Mummies, Hieroglyphics, and lots of other interesting things!
