Chemistry Can Be Pun Fun

Period ___

Note: This paper is to help you become familiar with the elements and symbols
found on the periodic table

Directions: With a wild imagination and a flair for puns, you will be able to use the names of many of the elements to take the place of other words or phrases. Some are very straight forward, but many require quite a stretch of the imagination. So get out your periodic table on pages 78 – 79 in your text book, fire up your imagination, and have fun. The first two have been done to get you

going.

Name _

going.
