What are Homophones?

Homophones are easy to remember if you think of your Greek roots.

Homo means "same." Phone means "sound." So homophones are literally two words whose names have the same sound. One example of this are the words hare and hair. If you hear them out loud without seeing them written down, you don't know if you are talking about a hare (rabbit), or a hair (growing on your head). Context helps you know which one is meant, as well.

Choose the correct homophone to complete each sentence.

| 1. Our whole family pack | ed our beach clothes and took a | trip to the | (see/sea). | |
|---|----------------------------------|--|-------------------|--|
