

Name: _____

Class: _____

Read the following text. Fill in each box with an appropriate word.

- 1) The construction worker who built the road between the village and the city was particularly strong and sturdy. Later, the construction team used the same concrete and steel structure. Although these materials were well-suited for stability on the left side, they were not quite so good on the right side, the city project suffered from toppling.

Answer:

- 2) When we take the bus to school, we must remember not to look at our phones too often or too long. This is because we may feel that we are distracted, important but just when we are essential. When we are too busy, we may feel that we are not doing our best.

Answer:

- 3) Using a mobile phone is dangerous now. We must be careful on the road and never look at the screen of the phone. We must be careful not to look at the screen too long, but we must be careful not to look at the screen too long.

Answer:

- 4) If you are not happy, you should take the time to go to the doctor. He will give you medicine to help you feel better and to help you feel better.

Answer:

- 5) The first principle of logic can be used to solve many of the problems that we face in our lives. This idea can be used in many ways, from the most basic to the most complex.

Answer:
