

Open-ended questions
***Answer on separate paper

- 1.2) What makes this documentary so compelling?
- 1.3) Why are people speaking up about the health experiment? Why would they do it?
- 1.4) What specific reports are there? Why are they used? What does the report contribute to you?
- 1.5) Detail elements of specific reports: descriptive evidence (Title, URL, RCT)
- 1.6) What report from the article is critical? Why do you think specific data from that?
- 1.7) How do you explain the "big idea" part? How is that helpful?
- 1.8) What do you think additional data does to support (or dis) that?
