

The Illusion of Space: Shading

We use LINE to create VALUE.

VALUE is... _____

This is a value scale, showing 8 degrees of gray between white and black.

When we shade, we:

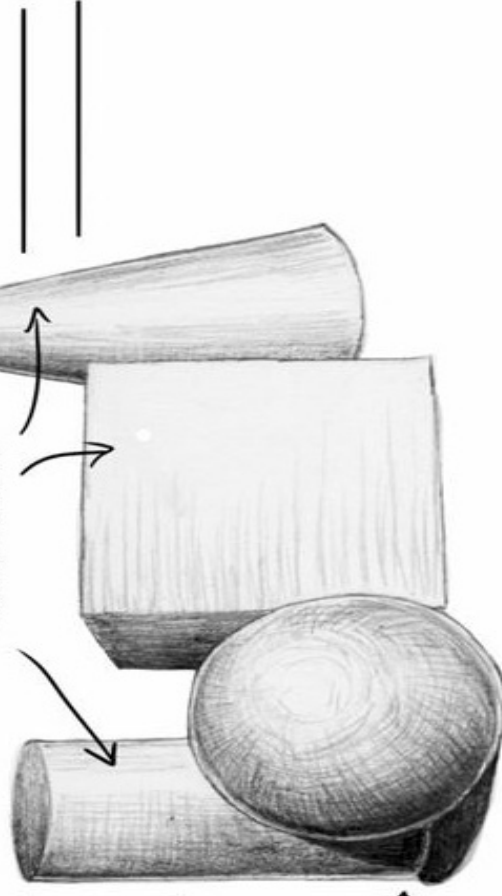

* go light to dark

* follow the contour of the object

* vary the pressure on our pencil

Highlight (white)

Light source:

Note that this picture has several values between black and white.

Cast shadow (black)

What is the difference between SHAPE and FORM?
