

## Dividing Money (B)

Calculate each quotient.

1.  $44 \overline{) \$1870.00}$

2.  $76 \overline{) \$2067.20}$

3.  $50 \overline{) \$2430.00}$

4.  $44 \overline{) \$3665.20}$

5.  $28 \overline{) \$1618.40}$

6.  $55 \overline{) \$2942.50}$

7.  $72 \overline{) \$3650.40}$

8.  $15 \overline{) \$1317.00}$

9.  $20 \overline{) \$1006.00}$

10. If 86 identical backpacks cost \$2812.20, how much did each backpack cost?
