Rea 0002: Reading Techniques II
Weekly Assignments: Class and Lab
Monday and Wednesday
Session II
2008

This worksheet is subject to change: instructor may add or delete assignments when necessary.

Week #1

January 7 Monday — Class: Introduction to the course
Lab: Vocabulary Placement Test

January 9 Wednesday — Class: Lecture: Time Management/ Previewing Your Textbook
Lab: Quantum on the desktop: choose one story from L or M
Create a personal study schedule

Grading Policy for the lab: The grade for the lab is completion of the lab assignments and the average attained on the vocabulary quizzes (this average will comprise 15% of the final mark for the course). The purpose of the lab is to improve your reading skills. In order to do this, you must complete the assignments each week in a timely manner. The Angel website also contains the weekly assignments for the lab as well as additional (not required) exercises for those who want more practice.

Homework for Week 2

Class: Chapter One: Complete Review (27-30) and tests(37-48)
Read *Keys to College Success* (458) and prepare for reading quiz 1
Lab: Study Chapter 12 "Rhetoric" for vocabulary quiz 1

Note: Bring vocabulary worksheets (green) to class.

Week #2

January 14 Monday — Class: Review *Keys to College Success* (458) and Reading Quiz 1*
Reading lab only: Vocabulary Quiz 1: Rhetoric (chapter 12)

*Note: Reading quizzes will always be returned the beginning of the next class meeting and discussed. Instructor will collect your scantron and the quiz after discussion. This is why there are no make-ups for the reading quizzes.

January 16 Wednesday — Class: Lecture: Memory Techniques and discuss vocabulary
Lab: Ten Steps on the Desktop: Vocabulary Sets 1 & 2 (80% mastery)
Ten Steps on Angel Vocabulary A, B, C, D
