

## Longitude & Latitude

35 possible points

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Answer the following questions about longitude and latitude.  
2 points each

1. Which latitudinal line is found at 30 degrees South? \_\_\_\_\_
2. The Eastern and Western Hemispheres are divided by what? \_\_\_\_\_
3. The Northern and Southern Hemispheres are divided by what? \_\_\_\_\_
4. Another name for longitudinal lines is \_\_\_\_\_.
5. What is the latitude at the equator? \_\_\_\_\_
6. How many miles does one minute of latitude equal? \_\_\_\_\_

Convert the following into the correct numerical latitude or longitude.  
3 points each

7. seventy-three degrees, twenty two minutes, thirteen seconds = \_\_\_\_\_
8. twelve degrees, nineteen and a half minutes = \_\_\_\_\_
9. thirty one and a half degrees, four minutes, and eighteen seconds = \_\_\_\_\_

Using your book and the information below, correctly label the global projection.  
1 point for each blank

90° N	180° W	45° E
45° N	135° W	90° E
0° Latitude	90° W	135° E
45° S	45° W	180° E
90° S	0° Longitude
