

## Interactive Learning Style Inventory

This inventory gives you the opportunity to describe how you **learn best**. There are no right or wrong answers. Read each statement and decide to what extent you agree or disagree with the statement. Think about what you do when you are learning something new and difficult, how do you **learn best**? Then give your immediate or first reaction to the statement. Don't base your response to the statement on what you do for this particular class or even at this college. Circle the one number that best describes what you do most of the time when you **learn best**.

Circle:                    1 if you strongly disagree  
                               2 if you disagree  
                               3 if you are neutral  
                               4 if you agree  
                               5 if you strongly agree

The first section asks about what you do to learn best **during class**. The second section asks what you do to learn best **when studying**. Circle the one number that best describes what you do most of the time when you **learn best**.

Please read and respond to every statement.	Circle only one number.
