

## Acute Myocardial Infarction Concurrent Core Measure Worksheet

Patient Sticker

EXAMPLE

Arrival Date/Time \_\_\_\_\_ Discharge Date \_\_\_\_\_

ER Physician \_\_\_\_\_ Admitting Physician \_\_\_\_\_

**Was this patient for Comfort Measures Only? Yes \_\_\_\_\_ No \_\_\_\_\_**

1	Was ASA given on arrival or 24 hrs prior to or after arrival?	Y	N	Reason	Exclusion:
2	Did patient have evidence of LVSD or was LVEF <40%?	Y	N	/	Exclusion:
2a	<b>If yes</b> , was an ACEI / ARB given to the patient?	Y	N	Reason	Exclusion:
3	Did the patient have ST-Segment Elevation or LBBB on the initial EKG done after arrival?	Y	N	/	Exclusion:
3a	<b>If yes</b> , was fibrinolytic therapy administered within 30 minutes of arrival? Date/Time Given: _____	Y	N	Reason	Exclusion:
3b	<b>If yes</b> , was PCI done within 90 minutes of arrival? Date/Time lesion was crossed: _____	Y	N	Reason	Exclusion:
4	Does patient have a history of smoking in the past 12 months?	Y	N	/	Exclusion:
4a	<b>If yes</b> , was smoking cessation training completed?	Y	N	/	Exclusion:
5	Was ASA prescribed at Discharge?	Y	N	Reason	Exclusion:
6	Was Beta Blocker prescribed at Discharge?	Y	N	Reason	Exclusion:
7a	Was the patient's LDL-c greater than 100 within 24 hours after hospital arrival?	Y	N	/	Exclusion:
7b	<b>If yes</b> , was a Statin ordered prior to discharge?	Y	N	Reason	Exclusion:

**Reasons for No Aspirin on Arrival or Discharge:**

- 1 Aspirin allergy
- 2 Coumadin / Warfarin as pre-arrival medication
- 3 Other reason documented by Physician/Pharmacist:

**Comfort Measure Only Terms:**

- Comfort Care or Comfort Measures  
Comfort Only/Palliative Care  
End of Life Care/Terminal Care  
Hospice/Hospice Care  
Organ Harvest/Brain Death*

**Reason for no Beta Blocker at Discharge:**

- 1 Beta Blocker allergy
- 2 2nd or 3rd Degree Heart Block on EKG within 24 hours after arrival while NOT on a Beta Blocker
- 3 Other reason documented by Physician/Pharmacist:

**Reason for no ACEI or ARB at Discharge:**

- 1 ACEI and ARB allergy
- 2 Physician/Pharmacist documentation of both a reason for NOT prescribing an ACEI / ARB at discharge\*  
(\*Documentation of one class is reason for not ordering the other class for the following:  
1-Angioedema, 2-Hyperkalemia, 3-Hypotension, 4-Renal Artery Stenosis,  
5-Worsening Renal Failure)
- 3 Moderate or severe aortic stenosis
- 4 Reason documented by Physician/Pharmacist for NOT prescribing ACEI at discharge AND ARB allergy
- 5 Reason documented by Physician/Pharmacist for NOT prescribing ARB at discharge AND ACEI allergy

**Notes:**

\*\*\*Not a part of the Medical Record\*\*\*
