

Food Chain Worksheets

Name _____

Date _____

Use these words to complete the food chain.

producer sun consumer rabbit shaded
herbivore backbone plant herbivore
omnivore omnivore

Animals are divided into two groups: herbivores and omnivores. Herbivores are animals that have a backbone and eat plants. Omnivores are animals that have a backbone and eat both plants and animals. Some animals do not have a backbone. Examples of herbivores are rabbits and cows. Examples of omnivores are humans and bears.

Food Chain Worksheets

Name _____
