

Name _____

Reading a Bar Graph

Find information using a bar graph.

Use the graph to answer the questions.

Jenny played a carnival game. The graph above shows how many balls she got into each bucket.

1. How many balls were in the pink bucket? _____
2. Which bucket had the most balls in it? _____
3. How many more balls were in the blue bucket than in the red bucket?

4. How many balls did Jenny get into all of the buckets together?

5. To win the game Jenny had to get six balls into the green bucket. Did she win?
