LAB \_\_\_\_ USING MICROSCOPES

Throughout the course of the year you will be using two different microscopes. Today you will refresh your knowledge of the compound light microscope and then extend your experience to the dissecting microscope. Please follow instructions.

**A. COMPOUND LIGHT MICROSCOPE**

Get a microscope and remind yourself of its parts by matching the labels on this diagram to the actual microscope. Check off the box next to each part, once you have identified it on the microscope in front of you.
