

Test: The Coordinate Plane

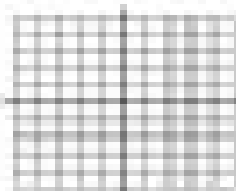

Page
Date

1. What is the Coordinate Plane?

1. The coordinate plane is made up of what two lines? _____
2. The coordinate plane is made up of the positive and negative _____.
3. What is the origin? The x and y axes meet at _____ and _____.
4. What are the four quadrants? _____ and _____.
5. A distance of 200 units on the x-axis is the same as 200 units _____.
6. How do you describe points on the coordinate plane?

A	-2	3
B	-1	1
C	1	1
D	2	3

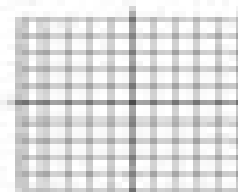

7. Use the graph below and describe the following.

1) Point
 2) Line
 3) Ray
 4) Coordinate Plane
 5) Four Quadrants
 6) Origin
 7) X-axis
 8) Y-axis

8. Follow the steps below to label the four quadrants of the coordinate plane below.

- 1) Identify the four quadrants: I, II, III, and IV.
- 2) Label the quadrants: I, II, III, and IV.
- 3) Label the axes: X-axis and Y-axis.
- 4) Label the origin: (0, 0).
- 5) Label the grid lines: X and Y.

9. What are the four quadrants? _____

10. What are the four quadrants and their coordinates? (I, II, III, IV, X-axis, Y-axis)

11. (1, 2) _____ (2, 1) _____ (1, -1) _____ (2, -2) _____
