

Complete the table below, showing equivalent fractions.

| Fraction | Denominator | Value |
|-------------------|----------------|----------------|
| $\frac{1}{2}$ | 100 | |
| $\frac{2}{3}$ | 100 | |
| $\frac{3}{4}$ | 100 | |
| | $\frac{1}{10}$ | |
| | $\frac{2}{10}$ | |
| | | $\frac{1}{10}$ |
| $\frac{1}{2}$ | 100 | |
| | | $\frac{1}{10}$ |
| | $\frac{1}{10}$ | |
| $\frac{100}{100}$ | | |

Use the table above to help to answer these questions:

1. $\frac{1}{10} = \frac{\square}{10}$

2. $\frac{20}{100} = \frac{\square}{10}$

3. $\frac{2}{10} = \frac{\square}{100}$
