**Content History Inventory: Genetics**

Please answer the following questions that will relate to your past experience(s) with genetics.

1. What do you know about genetics?
2. Have you ever heard the word "gene" before? If so, what does it mean? If not, what do you think it means?
3. Do you think individual organisms are similar to each other? Why or why not?
4. What is your understanding of DNA?
5. Can you list any types of genetic disorders?
6. What are two ways you think genetics is used for?
7. What are two things you would like to learn about genetics?
