

So Abram took his wife, his nephew, Lot, Lot's family, and many servants and animals---because Abram was rich----and Abram followed God.

God took him to the land of Canaan. God said, "I will give you all this land---as far as you can see--all this will belong to your family."

Abram and Lot lived near each other in this new land. After a while there were too many animals all in one place eating. So Abram let Lot choose a part of the land for his family and animals.

Lot took a part of the land that was near the city of Sodom. It was green and had rivers and water.

Abram took the other part of the land for his family and animals.
