

Name _____

Worth 100 points

List factors that may affect the movement of the boxes in the ship.

Variables: (2 points each)

Problem/Question: (clear, measurable, indicate goal)

Independent Variable: (What am "I changing" on purpose?)

Dependent Variable: (What is changed as a result of IV, what is measured in the end?)

Control: (If applicable. Is there a trial where the IV is not changed that is used to compare?)

Constants: (What is kept the same to limit responses to the dependent variable?)
