

Cut out the words. Give each word to the correct box on the picture.

- condensation
- evaporation
- precipitation

- The water droplets become heavy
- As the water vapor rises, it cools down.
- The sun heats the earth's water.
- The heavy droplets fall to the earth as rain, snow, sleet, or hail.
- The warmed water turns into vapor and rises in the air.
- In the clouds the tiny water droplets join together.
- The tiny water droplets form clouds.
- The cooled water vapor forms tiny droplets of water.

Directions: You will need a piece of construction paper. After you color the picture of the Water Cycle, cut out the sentence strips. Give the strips below the picture in the right order.
