

## Homework

Below and on the right are the 14 words you have been learning in class today. At the start of the next class you will do a quiz on these words.

Your task for the next lesson is to be able to:

- a) Memorise the meaning of the words.
- b) Memorise the spelling of the words
- c) Memorise the pronunciation of the words

This is how to complete this task:

1. Use the strategies discussed in class to help you learn the words
2. Using the sheet with the Spanish and English test yourself on the words.
3. After testing each time, use the other side of this sheet to colour code the words in the following way:

**Green:** I can say and spell this word and know its meaning

**Orange/Yellow:** I have difficulties with the spelling/pronunciation or meaning

**Red/Pink:** I am struggling to learn this word.

4. Repeat 1-3 until you manage all words and can colour them
