

Name _____ Date _____

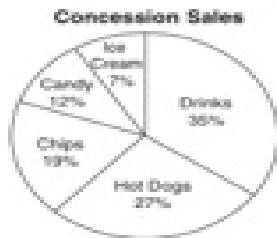

Practice Test 2 (continued)

This table shows the average attendance at the state fair over 4 years. Use the table to answer questions 26 and 27.

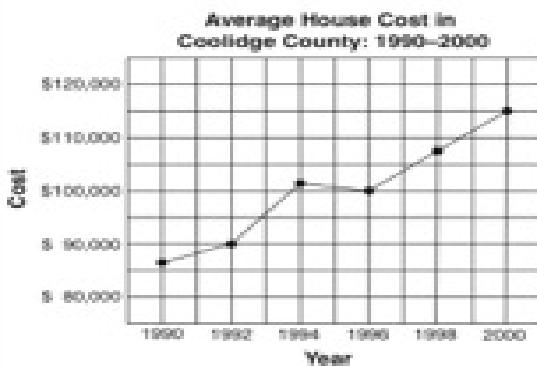

Year	Weekday	Saturday	Sunday
1	15,600	23,000	20,100
2	14,900	24,400	20,000
3	15,300	24,600	20,300
4	15,200	25,000	20,700

26. What was the average weekday attendance in Year 3?
- (F) 15,300 (G) 24,600
(H) 15,600 (J) 44,900
27. Which statement do these figures support?
- (A) Overall, fair attendance has increased each year.
(B) Sunday has been the most popular day to go to the fair each year.
(C) More people attend the fair each weekday than on weekends.
(D) Weekday attendance has been growing steadily each year.
28. The graph below shows the kinds of snacks sold at a concession stand. Out of every 100 snacks sold, how many are either hot dogs or drinks?

- (F) 27
(G) 35
(H) 38
(J) 62

Use the graph below to answer questions 29 and 30.

29. What was the average cost of a house in 1998?
- (A) \$100,000
(B) \$102,000
(C) \$108,000
(D) \$115,000
30. In what period did the cost of a house show the greatest increase?
- (F) 1992–1994
(G) 1994–1996
(H) 1996–1998
(J) 1998–2000
