

Name _____

Exponent Tic-Tac-Toe

Directions

1. Player 1 chooses a box and calculates the correct answer. (Player 2 must also solve the problem and agree with Player 1's answer.)
2. If the answer is correct, Player 1 places an X or O in that box.
3. Repeat the directions for Player 2.
4. The first player to fill in five boxes in a row wins the game.
(The boxes may be filled in vertically, horizontally, or diagonally.)

3^2	10^2	4^2	2^2	7^2
5^2	8^2	12^2	6^2	1^{10}
2^2	9^2	10^2	4^2	15^2
12^2	7^2	5^2	14^2	2^2
10^2	3^2	8^2	5^2	6^2
