## Neuropsychological Strength/Weakness Worksheet

Use the following table to identify specific neuropsychological strengths/weaknesses of the individual of concern. Then, use this website to identify specific recommendations to address each identified weakness.

	Weakness	Strength
Weaknesses in Attention		
<ul> <li>Arousal</li> </ul>		
<ul> <li>Focused Attention</li> </ul>		
<ul> <li>Divided Attention</li> </ul>		
<ul> <li>Sustained Attention</li> </ul>		
Weaknesses in Memory		
<ul> <li>Encoding and Consolidation</li> </ul>		
<ul> <li>Retrieval</li> </ul>		
<ul> <li>Sensory Specific Memory Skills</li> </ul>		
<ul> <li>Verbal Memory Strengths</li> </ul>		
<ul> <li>Visual Memory Strengths</li> </ul>		
Weaknesses in Executive Functions		
<ul> <li>General Strategies</li> </ul>		
<ul> <li>Disorders of Initiation</li> </ul>		
<ul> <li>Disorders of Termination</li> </ul>		
<ul> <li>Disorders of Self-regulation</li> </ul>		
Weaknesses in Visual-Spatial Abilities		
Visual Acuity		
Visual Field Cuts		
Depth Perception		
Spatial Neglect		
Figure Ground Discrimination		
Visual Closure		
Spatial Construction		
<ul> <li>Spatial Disorientation</li> </ul>		
Body Schema		
XXVI		
Weaknesses in Language		
General Strategies		
• Discourse		
Written Language		
Reading Comprehension		
<ul> <li>Auditory Comprehension</li> </ul>
