

### LOGIC PUZZLE

Five family members all met up for a picnic. Use the clues below to work out how they got there and what snack they brought with them. Tell us how Kevin travelled to the picnic (which is the grey space in the lower grid). Read through the list of clues below and use the larger grid to record any information. Place a tick in a box if you have any definite positive information and a cross for any definite negative information. For example, you learn that Brady rode his motorbike, so we have placed some logical ticks and crosses in the grid to help you. Using this method, you should be able to fill in the smaller grid.

#### CLUES

- |   |   |
|---|---|
| <p>1 Brady rode his motorbike and brought food with him.</p> <p>2 The person driving the car brought water.</p> <p>3 Both Janice and Kevin didn't drive a car nor cycle to get to the picnic.</p> | <p>4 Molly exercised her legs getting to the picnic but she didn't bring the salad.</p> <p>5 A woman walked to the picnic and brought some camembert.</p> <p>6 Kevin took something to drink.</p> |
