

I feel worried

I feel despair

I feel afraid

My palms are very  
sweaty and my  
mouth is really dry

I feel constant  
state of worry and  
fear

I am the only person  
who truly comprehends  
how screwed we are

"Oh no no no no no no  
no no!"

I am reacting to  
certain doom a  
certain way

I am triumphant and  
brilliant
