

# Act Well Your Part

*Read this before stepping on stage*

---

## **1. Don't forget the audience**

Think of the audience as your acting partner. Make sure they can see, hear and understand you.

## **2. Act with the voice AND the body**

How does your character stand, walk, gesture?  
What kind of character does the audience see?

## **3. Pay attention to your voice**

Be aware of your diction, articulation and volume. All three are necessary in the theatre!

## **4. Stay in character**

Even if you forget lines or get horrible stage fright, **stay in character**. If you're always in character the audience will never know there's something wrong.

## **5. You are never invisible**

If you can see the audience, they can see you. Never assume you can go off, squirm or break character when you're not the focus of a scene.
