

The job interview

The job interview is very important. Before you go there you must think of a lot of things. You should know about the company, the people who work there, the kind of work you will do, and the kind of people you will be working with. You should also think of questions to ask the interviewer. The interviewer will be looking for answers to these questions.

Remember: Good first impressions are the key to a successful interview.

Remember: When the interviewer asks:

What does the job entail?

Can you tell me where the work is?

When will I be working?

Do you have a good idea of the work?

When will you start working?

What are the hours of work?

Should you ask the interviewer what you can do?

Remember: It is not just about the job, but also about the people you will be working with.
