

# Ouch!

## ou/ow game

**Directions:** Place cards in a pile face-down or in a small container/jar. Pass around. Each child draws a card and reads the word. The word is kept if it is read correctly. If it is read incorrectly it goes back into the pile or jar. When an "Ouch" card is pulled, the child must put all their cards back in.

**Variation:** To make the game more challenging, have the child read the word, flip the card so it is facing away from them and then spell the word.
